Horoscopes

Aries- It's not that you're trying to mess anything up, but for some reason, everything you touch seems to crumble in your hands. Tomorrow will be easier.

Taurus- You love your best friend because they know what you're thinking before you even open your mouth. It's fun to have inside jokes, but don't make everyone else feel left out.

Gemini- Make sure that there aren't any rumors floating around about you. Misunderstandings can lead to some pretty serious accusations. The best way to avoid being the subject of gossip is not to participate in it yourself.

Cancer- You're especially in tune with your intuition right now, Cancer, so listen to what that little voice inside of you is saying. It could mean all the difference between having a really good day or a really bad day.

Leo- If you're confused about something, don't be afraid to ask for directions one more time -- and write them down. That phrase "there is no such thing as a stupid question" has never been more true than it is right now.

Virgo- You can't start the project without knowing exactly what is is you're supposed to do, Virgo. Go over your instructions a second time to make sure that you really get them.

Libra- Everyone else us just sailing through their projects or their tests and you're still stuck on the first step. Don't panic, Libra -- this isn't a race. Accuracy is more important than speed, so don't worry if you're the last one to finish the task.

Scorpio- Art is one of your favorite things. Get information on your favorite artist or visit a local gallery. If you feel really creative, take up a new art form in your spare time. Who knows, you might make something really cool!

Sagittarius- You know you just had your keys, but now you can't find them. Unfortunately, losing things is one thing you're plenty good at right now! Try to keep your responsibilities to a minimum today.

Capricorn- If you can sympathize with someone who's being teased or picked on, don't be afraid to come to their rescue. It's important to stick up for people who are having a hard time. Even if you can't relate, it's still a nice thing to do.

Aquarius- You didn't think anything could distract you form what you were doing, but here you are, behind schedule! It might be too late to make up for the time you lost, but you should at least try to get something more done.

Pisces- Express your ideas, Pisces. Don't be shy. You might be worried that you'll be laughed at, but you really don't have anything to worry about. In fact, you'll probably hear applause when you speak your mind.
