

Horoscopes...What's in your future???

taken from www.astrology.com

Aries- Life goes by at a fast pace, and if you stop for even a minute, you could miss out on something important. Just try to focus on keeping up with your top priorities. You can worry about what it all means another time.

Taurus- You aren't being yourself. If you think the people you're spending most of your time with can't notice it, you're wrong. You don't have to change, but you may have to offer an explanation if anybody asks for one.

Gemini- You got it started, so let someone else worry about finishing it. You've got too much going on to be worried about the details. The big picture is in focus, so paying attention to the smaller stuff isn't that important right now.

Cancer- That little voice inside of your head is trying to tell you something, so why aren't you listening? It's obvious that you know the difference between right and wrong, so don't ignore important signs from your subconscious.

Leo- Your best friend can totally understand and sympathize with what you're going through right now, so don't be embarrassed to tell them what's on your mind. They've been where you are before, and they can help you feel better about whatever's going on.

Virgo- You're zinging the one-liners left and right! As long as everyone is laughing, it doesn't matter where you're coming up with your material. You can't be the fun-

niest person in the room all the time, but right now you're on a roll.

Libra- The reason you're getting goose bumps is because everything is starting to go exactly as you wanted it to. There's a lot of chemistry between you and someone you've had a crush on for a long time. Now is the time to make your big move.

Scorpio- You may think you've got everything under control, but there are a few details that you missed. Go back over your work and make sure you caught all the mistakes. Looking at things twice could mean the difference between passing and failing.

Sagittarius- If there aren't any rules posted, make up your own. There's nothing wrong with following your mood wherever it takes you, especially if you have a friend who wants to try some of the same things you do.

Capricorn- You're stuck here while everyone else is out having a good time. Time seems to drag on forever when you're doing something you don't want to do. Don't worry, you won't have to stay here forever.

Aquarius- Get outside and do something physical. Even if the weather isn't that great, it will still be good for you to get your blood pumping. Besides, the busier you are, the less likely you are to be bored.

Pisces- Pisces loves to be on stage. You don't have to have a huge audience. As long as people are looking in your direction, you're happy. If you don't get the applause you're looking for right away,

Now's the time to order your yearbook! See a yearbook staff member or Mrs. Temple to order one. The cost is \$30 if your order before the end of the day Friday and \$35 after the holidays!

The Wildcat Echo is published in-house most Fridays. Our mission is to create a publication that captures the highlights as well as everyday life of the students at Maquoketa Valley. The staff welcomes story ideas and suggestions to help cover MV better.
