Why do you enjoy art? Because you can do whatever you want and there are no specific assignments.
Who has inspired you? My brother, he is a good drawer
What is your favorite art class ever taken? Crafts
Advice to other artists? Be creative, and have fun with it.

Fine Artists of the Week

by Klyn Elsbury

Miranda Knake and Amy Salow

This week we have two very talented singers as our fine artists. Together they took a trip to All-State. They left Thursday the 20 of November and were gone until late Saturday night (the 22nd). The two worked hard to get there. In order to be accepted these two had to audition. Each person auditioned parts of different songs that they had previously been learning.

"The auditioning process was long and very nerve racking," commented sophomore Miranda Knake.

When they arrived at all-state they started to practice. Together they agree that although it was strenuous at times it was also fun. Amy stated that the director was excellent and there were many awesome and talented singers.

When questioned about the final performance, both smiled widely and said, "It was one that we will never be able to forget. It was just purely awesome!"

All-state has created many memories and they agree the people and the hot tub were things that they will remember the most.

A final congratulations to these two talented individuals!
