# Ask Audrey

Dear Audrey,  
I really like this boy in my sixth hour class, and I think we'd make a good couple. How can I drop a hint that he should get to know one another better?  
-Smitten

Dear Smitten,  
Well, supposing this guy doesn't have a girlfriend, you could do one of three things. You could ask him what he likes; maybe you two have a lot in common and don't even know it. You could also just flirt with him a lot; just be sure not to be extremely obvious about it. Or you could just combine the two, talk to him a lot and laugh at his jokes even if they're stupid. I love to help a fellow woman in need. Hopefully this advice will help you drop a hint.  
Love Always,  
Audrey
