

STUDENT ORGANIZATIONS

Secondary school student-initiated (nonschool sponsored) noncurriculum-related groups and student curriculum-related groups (nonschool sponsored), upon receiving permission from the principal, may use school facilities for group meetings during non-instructional time.

Non-instructional time shall mean any time before the first period of the day and after the last period of the day in which any student attends class. Meetings shall not interfere with the orderly conduct of the education program or other school district operations. It shall be within the discretion of the principal to determine whether the meetings will interfere with the orderly conduct of the education program or other school district operations. Activities relating to and part of the education program shall have priority over the activities of another organization.

Curriculum-Related Organizations

It shall also be the responsibility of the principal to determine whether a student group is curriculum-related. One or more of the following questions will be answered affirmatively if the group is curriculum related:

- Is the subject matter of the group actually taught in a regularly offered course?
- Will the subject matter of the group soon be taught in a regularly offered course?
- Does the subject matter of the group concern the body of courses as a whole?
- Is participation in the group required for a particular course?
- Does participation in the group result in academic credit?

Secondary school curriculum-related student organizations may use the school district facilities for meetings and other purposes before and after the instructional school day. Employees shall be assigned to monitor approved meetings and may interact with curriculum-related organizations.

Noncurriculum-Related Organizations

Student-initiated (nonschool sponsored) noncurriculum-related organizations shall be provided access to meeting space and school district facilities.

Only students may attend and participate in meetings of noncurriculum-related groups.

Such attendance shall be strictly voluntary and student-initiated. As a means of determining whether a student's attendance is voluntary, the principal may require parental consent for the student to attend the meetings.

Employees will be assigned to monitor approved meetings. Employees shall not participate in the meeting or assist in planning, criticizing, or encouraging attendance. Only students may be involved in and attend the non-curriculum group's meetings.

It shall be the responsibility of the superintendent, in conjunction with the principal, to develop administrative regulations regarding this policy.

It is understood that student-initiated groups wishing to use gymnasium facilities for recreational activities (nonschool sponsored) will be required to comply with Board Policy 1004.013 and pay all appropriate fees.
