

CLASS SIZE

The Board of Directors is aware that class size has bearing upon effective teaching. It, therefore, directs the Superintendent to work with the principals in establishing a reasonable and equitable class enrollment for each teacher.

The Board understands that achieving this goal is dependent upon the financial ability of the school district. In determining the size of various classes, the administration will consider the following factors:

1. The type of load which will help the teacher be most effective with the children in the class.
2. The experience of the teacher and the teacher's familiarity with Maquoketa Valley District programs and policies.
3. Distribution among teachers of out-of-class activities.
4. Required preparation and correction time for the particular class.
