

FIELD TRIPS AND EXCURSIONS

Educational field trips serve the instructional program by using resources that cannot be brought into the classroom. Trips should be carefully planned to operate in conjunction with and help to enrich the regular instructional program. Supplementary travel and exchange programs may also be sponsored, either by the district or in cooperation with reputable agencies. Procedures for approving all educational field trips are expected to provide for appropriate consideration of purpose, educational value, planning details, staff qualifications, student selection, student health and safety, insurance coverage, parent communication, financial arrangements, supervision and evaluation.

Normally all field trip requests will be approved or denied by the appropriate building principal. However, requests for field trips outside Iowa must be presented to the Board of Directors for their approval or denial.
