

**GRADING SYSTEMS**

It is the philosophy of this district that students will respond more positively to the opportunity for success than to the threat of failure. It seeks, therefore, through performance objectives in its instructional program to make achievement both recognizable and possible for students. It emphasizes achievement in its process of evaluating student performance.

The issuance of grades on a regular basis serves to promote a process of continuous evaluation of student performance, to inform the student, his/her parents, and his/her counselor of his/her progress, and to provide a basis for bringing about change in student performance, if such change seems necessary.
