

SUPERVISION OF CONSTRUCTION

The Board shall require from personnel employed and directly responsible to the school district a review of the architect's activities in his/her supervision of building construction. This review shall include adequacy of field inspection of the contractor's operations, administrative activities of the architect relating to construction and any other matters relating to the interest of the school district. The district's representative shall make periodic reports certifying by his/her personal knowledge that the work of the construction contractor and the architect is being performed in accordance with plans, specifications and contracts.

A change order will first be submitted to the Superintendent of Schools who will determine whether or not it is a matter for Board consideration. If the Superintendent decides Board consideration is not necessary, then the signature of the Superintendent shall be considered Board action.

Upon completion of the building construction and a final inspection of all its aspects by the architect, contractors and school officials, a recommendation for its acceptance is made to the Board.
