## Fine Artist of the Week

Name: Mr. Hadley  
Activity: MV Awesomeness

**What made you decide to become a band director?** I have always loved music. I come from a really musical family so I grew up with everyone singing and playing every family get-together or holiday. I had some great music teachers that encouraged me and helped me find something I was passionate about all while having fun, and I just wanted to be that teacher for other people. I always looked forward to providing that class where everyone plays and no one has to sit on the bench. We only succeed when everyone contributes. "Some people dream of meeting their favorite musicians, I get to teach mine."

**What made you decide to teach in Tokyo?** Aside from music, my next biggest passion is travel. Music was what sparked my interest in seeing the world. I was lucky enough in college to spend 8 weeks touring and performing around Europe and Australia with the Wartburg concert band and jazz band. That experience led to a life-long interest in seeing new places and learning about other cultures. When the Tokyo job presented itself, it was too hard to pass on because it combines my love for music and for travel. I think it will be a significant challenge in many ways but also a really exciting opportunity.

**You've made a tremendous impact on the fine arts at MV with your involvement in the musical, spring play, speech, band, vocal jazz and choir. What have you enjoyed most about your time at MV?** MV has had a tremendous impact on me as well! It sounds like a cop-out answer, but I have really enjoyed it all. I loved being able to conduct the band and make music every day and still get the chance to work with other students as well. I have some great memories from speech and drama seasons that I wouldn't trade for anything. Watching our students from the first practice to last performance is SO cool and makes for some proud moments seeing the growth. My biggest enjoyment, though, has been getting to wave my arms in front of some truly awesome people who have shared their gift of music with me every day.

**Who on staff could possibly fill your role as the Teacher with the Best Fashion Sense?** There are several days when Mr. Huegel is a worthy opponent, but others give him a run for his money like when Mr. DeVore shows up with a pair of joggers or Mr. Tuetken wears a bow tie. Gentlemen of the student body, ditch the white socks unless you're wearing sneakers and if your pants have belt loops, wear one -- you're welcome.

## Athlete of the Week

Name: Cassiddy Wilson  
Sport: Track

**What are your favorite events to run at a track meet?** The shuttle huddle relay and D-Med.

**What do you think about when you run?** I try to tell myself not to give in and turn all my negatives into positives.

**How do you mentally prepare for a race?** Depends on the race. If it's hurdles I think a lot about the race and try to vision myself clearing each hurdle perfectly. If it's an 800 it's best not to think about the race itself (it freaks me out) so I think about beating the competition and gaining points for the team.

**What has track meant to you?** More than what I think I could express in words without sounding psycho. :)

**What will you miss most about track?** Because I am running next year I will not miss the sport; however, I will miss my teammates who have been there with me since the beginning, especially my middle distance training buddies.

**In honor of it being our last week here at MV we would like to write about our all-time favorites!**

**Rebekah & Amanda:**

**Glee:** If you have ever read Binge Worthy you should know that we are crazy about Glee. I mean how can't you be? Amazing music, fun characters, lots and lots of drama. It is literally like our high school but people randomly singing. It is great. It follows the life of McKinley High's Glee Club as they fight to get started and then fight to stay a group. Finn, Rachel, Quinn, Artie, Mr. Schu, Sue, and many many more characters make this show great. They sing classic songs such as "Jessie's Girl" and they also sing modern songs such as "Uptown Funk." This is a show that everyone needs to watch because along with music it also has great messages! A must see!

**Rebekah:**

**All the Bright Places by Jennifer Niven:**

This is my all time favorite book. Engaging characters that everyone can relate to at one or more points in their lives. As Finch and Violet start to be in each other's lives more they take a new look at their own lives. Realizing what they feel, why they feel it, and how they can change. As the two help one another navigate through life's struggles there are unexpected twists and turns. An AMAZING book! I believe that everyone should take the time to read this book, you won't regret it.

**The Way I Used to Be by Amber Smith:**

Eden is a freshman in high school and she is looking forward to the next four years of her life. That is until, she is raped. This story follows Eden's life after she is raped throughout her four years in high school. It shows her inner and outer struggles, her mini triumphs, and her war that she can only face alone. This story does an amazing job of showing the effects of such abuse and is a chilling story. This is a book that everyone should take the time to read. It is amazing and one of my favorite books!

**Moana:** I loved this movie so much that I had to go see it in theaters twice. If you don't like Disney, think again. This is an amazing, heart-felt movie. Following the life of Moana, the daughter of the chief of the island, we watch her make her own path. She has always been told to stay away from the water, because it is dangerous. However, when her island starts to die she must decide whether to listen to her father or save her people. An amazing soundtrack that goes along with an amazing story. A MUST SEE!!

**Amanda:**

**An Ember in the Ashes by Sabaa Tahir:**

Let's start off with my favorite book of all time! Laia lives a simple life, until the day the Empire came for her family. When her family is killed before her eyes, Laia sets out on a mission to bring down the Empire and Mask soldiers. Elias has it all: friends, skill, and the top of his Mask class. Only he doesn't want any of it. When these two meet their lives become intertwined forever. Together they must bring down the Empire and everything it stands for.

**The Hunger Games Trilogy by Suzanne Collins:**

We have all heard about the Hunger Games and if you have not you probably live under a rock. So instead of a summary I thought I would share why I like this trilogy. The Hunger Games was probably one of the first books that I bought on my own and I loved it. It was a creative story that truly captured the love of a sister. I mean there are parts of the story that tear out my heart and make me angry. However, it will forever be one of my favorite books series of all time.

**Harry Potter and the Prisoner of Azkaban:**

I have loved all the Harry Potter books and movies but by far the Prisoner of Azkaban is my all time favorite. Harry Potter think he might have a normal year however, when he accidentally blows up his uncle's sister and runs away from home it becomes far from normal. Sirius Black has escaped from prison and he is coming for Harry. When strange things begin happening around Hogwarts Harry and his friends begin to fear the worst. This is one of the most exciting and adventurous Harry Potter movies. Definitely a must see!
