Solo and ensemble contest provides a good opportunity for students to receive feedback on their musical skills, and MV students certainly let their skills shine at contest this past Saturday at Cascade. Students could earn scores from I to V.

Students are judged on criteria such as their tone quality, intonation, rhythm, technique and musicianship.

Mrs. Mueller said she was pleased with the day. She said this contest helps students understand what a fine performance is.

Mr. Ford said preparing for contest allows students to focus on playing as an individual or in a small group. "They're much more 'on the spot' than when they play with a large group."

## MV golfers take medalist honors

by Kelly Winter

The golf season has officially started! Our boys and girls varsity teams competed at their first meet Monday night against Springville at Meadowview Golf Course. It was a pretty cold and windy night. The boys lost, and there was no team score for the girls because of lack of numbers for Springville.

“Overall I was satisfied with our results for both the boys and girls for our first meet of the season,” stated Coach Andrews. “It definitely felt good to get the first meet under our belt and to have a better understanding of the specific skills each of our golfers need to improve upon in a competition.”

A highly of the night was Isaac Zirtman earning medalist honors and Kelly Winter

being runner-up medalist.

The results are listed below:

MV - 254

**Activities involved in during high school:** Before I came to Maquoketa Valley I was involved in Cross Country and Track.

**Which activity affected you the most? How?** Cross Country because it takes a lot of dedication to get to where you want to be.

**What is a favorite elementary/middle school memory?** Although I wasn't at Maquoketa Valley for elementary/middle school my favorite would probably be the Adventureland trip I went on at the end of my eighth grade year.

**If you could give advice to a freshman, what would it be?** Take all the hard classes that you can first so that you can enjoy senior year.

**What do you appreciate most about Maquoketa Valley?** The staff because they are always willing to work to make sure you don't fail. I also enjoy not having block scheduling.

**If you could relive any moment in high school what would it be and why?** Probably environmental science and geology because last year's class was full of jokes and pranks and it was great to always have a good laugh and for us to even get Mrs. Besler to laugh.

**Who is your most inspirational teacher? Why?** I have a few and they are Mrs. Palmer, Mr. Dunlap, Mrs. Besler, and even though she isn't a teacher Mrs. McDermott.

Mrs. Palmer because she always has a smile on her face no matter what type of day it is and we can share stories back and forth and usually get a good laugh out of it.

Mr. Dunlap because he always like to mess around and believed in me when I thought I was going to do horrible in his class (by the way I passed with an A)

Mrs. Besler because science is not my best subject but she has helped me get through it and I'm thankful for that I also know that I go to her and talk about anything and she will offer me ideas on how to fix my problem.

Mrs. McDermott because no matter what situation I get myself into she is always there to help and she believes in me when I don't believe in myself. She is also always so happy and fun to just talk about and I feel we can connect a lot.

**If you wanted people to remember you by a song, which one would it be?** "Simple" by Florida Georgia Line

**What does your future (college and career) look like?** I plan on going to Kirkwood starting in August and then transferring to University of Northern Iowa for elementary teaching and later going back for a degree in business management so that I can open my own business in Real Estate.

**What is your dream job?** Teaching little kids I've wanted this job since I was in preschool

**What's the hardest thing you've ever had to do?** Try to pass physical science because I didn't understand a single thing I was doing especially in stoichiometry.

**What one event has most impacted your life so far?** Probably losing my grandma my freshman year because me and her were extremely close and I don't remember a day that I wasn't with her.

**What event from high school do you hope your classmates still talk about at your five-year class reunion?** Me always being there for everyone
