PRINCIPLES AND OBJECTIVES FOR COMMUNITY RELATIONS

Successful education programs require the support of the school district community. The board addresses the importance of the role of the school district community in the school district in this series of the policy manual. The board recognizes this support is dependent on the school district community's understanding of participation in the efforts, goals, problems and programs of the school district.

In this section, the board sets out its policies defining its relationship with the school district community. In striving to obtain the support of the school district community, the board will:

- Provide access to school district records;
- Inform the school district community of the school district's goals, objectives, achievements, and needs;
- Invite the input of the school district community; and,
- Encourage cooperation between the school district and the school district community.

PUBLIC EXAMINATION OF SCHOOL DISTRICT RECORDS

Public records of the school district may be viewed by the public during the regular business hours of the administration offices of the school district. These hours are 8:00 a.m. to 4:00 p.m. Monday through Friday, except for holidays and recesses.

Persons wishing to view the school district's public records will contact the board secretary and make arrangements for the viewing. The board secretary will make arrangements for viewing the records as soon as practicable, depending on the nature of the request.

Persons may request copies of public records by telephone or in writing, including electronically. The school district may require pre-payment of the costs prior to copy and mailing.

Persons wanting copies may be assessed a reasonable fee for the copy. Persons wanting compilation of information may be assessed a reasonable fee for the time of the employee to compile the requested information. The district will make every effort to provide the public record requested at no cost other than copying costs for a record which takes less than thirty minutes to produce.

Costs for legal services utilized for the redaction or review of legally protected confidential information may also be assessed to the individual requesting the records. Printing of materials for the public at the expense of the school district will only occur when the event is sponsored by the school district.

Pursuant to Iowa law, the board has determined certain records need to be confidential as their disclosure could jeopardize the safety of persons or property and include, but are not limited to, the following:

- Security procedures
- Emergency preparedness procedures
- Evacuation procedures
- Security codes and passwords

It is the responsibility of the board secretary to maintain accurate and current records of the school district. It is the responsibility of the board secretary to respond in a timely manner to requests for viewing and receiving public information of the school district.

Further, the superintendent will strive to create and maintain a positive image for the school district. It is the responsibility of the superintendent to approve news releases originating within the school district prior to their release.

It is within the discretion of the superintendent to determine whether the request is unduly burdensome and whether the broadcast or recording will interfere with or disrupt the school district event.

Recording of classroom activities will be allowed at the discretion of the superintendent. Parents will be notified prior to recording of classroom activities.

SCHOOL - COMMUNITY GROUPS

The board values the participation and the support of school district-community groups, including, but not limited to, the booster club and parent-teacher organizations, which strive for the betterment of the school district and the education program. The board will work closely with these groups.

Prior to any purchase of, or fund raising for the purchase of goods or services for the school district, the group will confer with the superintendent to assist the group in purchasing goods or services to meet the school district's needs.

Funds raised by these groups for the school district may be kept as part of the accounts of the school district.

It is the responsibility of the building principal to be the liaison with the school district-community groups affiliated with the building principal's attendance center.

COMMUNITY RESOURCE PERSONS AND VOLUNTEERS

The board recognizes the valuable resource it has in the members of the school district community. When possible and in concert with the education program, members of the school district community may be asked to make presentations to the students or to assist employees in duties other than teaching. The school district may officially recognize the contributions made by volunteers.

Recruitment, training, utilization, and the maintenance of records for the purposes of insurance coverage and/or recognition of school district volunteers is the responsibility of the superintendent.

Volunteers within the district are held to the same high standards of behavior as school employees and will be subject to background checks prior to interacting with the students in a volunteer capacity. It is the responsibility of the superintendent or the superintendent's designee to create regulations necessary to carry out this policy.

VISITORS TO SCHOOL DISTRICT BUILDINGS & SITES

The board welcomes the interest of parents and other members of the school district community and invites them to visit the school buildings and sites. Visitors, which include persons other than employees or students, must notify the principal of their presence in the facility upon arrival.

Persons who wish to visit a classroom while school is in session are asked to notify the principal and obtain approval from the principal prior to the visit so appropriate arrangements can be made and so class disruption can be minimized. Teachers and other employees will not take time from their duties to discuss matters with visitors.

Visitors will conduct themselves in a manner fitting to their age level and maturity and with mutual respect and consideration for the rights of others while attending school events. Visitors failing to conduct themselves accordingly may be asked to leave the premises. Children who wish to visit school must be accompanied by a parent or responsible adult.

It is the responsibility of employees to report inappropriate conduct. It is the responsibility of the superintendent and principals to take the action necessary to cease the inappropriate conduct. If the superintendent or principals are not available, a school district employee will act to cease the inappropriate conduct.

PUBLIC CONDUCT ON SCHOOL PREMISES

The board expects that students, employees and visitors will treat each other with respect, engage in responsible behavior, exercise self-discipline and model fairness, equity and respect. Individuals violating this policy will be subject to discipline. Students will be disciplined consistent with the student conduct policies. Employees will be disciplined consistent with employee discipline policies and laws. Others will be subject to discipline according to this policy.

Individuals are permitted to attend school sponsored or approved activities or visit school premises only as guests of the school district, and, as a condition, they must comply with the school district's rules and policies. Individuals will not be allowed to interfere with or disrupt the education program or activity. Visitors, like the participants, are expected to display mature, responsible behavior. The failure of individuals to do so is not only disruptive but embarrassing to the students, the school district and the entire community.

To protect the rights of students to participate in the education program or activities without fear of interference or disruption and to permit the school officials, employees and activity sponsors and officials to perform their duties without interference or disruption, the following provisions are in effect:

- Abusive, verbal or physical conduct of individuals directed at students, school officials, employees, officials and activity sponsors of sponsored or approved activities or at other individuals will not be tolerated.
- Verbal or physical conduct of individuals that interferes with the performance of students, school officials, employees, officials and activity sponsors of sponsored or approved activities will not be tolerated.
- The use of vulgar, obscene or demeaning expression directed at students, school officials, employees, officials and activity sponsors of sponsored or approved activities participating in a sponsored or approved activity or at other individuals will not be tolerated.

If an individual becomes physically or verbally abusive, uses vulgar, obscene or demeaning expression, or in any way interrupts an activity, the individual may be removed from the event by the individual in charge of the event. Law enforcement may be contacted for assistance.

Individuals removed from school premises have the ability to follow the board's chain of command and complaint policies should they choose to do so. The exclusion is in effect should the individual choose to appeal the decision of the superintendent. The term "individual" as used in the policy also includes students and employees.

If an individual has been notified of exclusion and thereafter tries to enter a school building or attends a sponsored or approved activity, the individual will be advised that his/her attendance will result in prosecution. The school district may obtain a court order for permanent exclusion from the school building or from future school sponsored or approved activities.

DISTRIBUTION OF MATERIALS REGULATION

I. Guidelines.

Individuals, including students, may have the right to distribute on school premises, at reasonable times and places, unofficial written material, petitions, buttons, badges or other insignia, except expression which:

1. is obscene to minors;
2. is libelous;
3. contains indecent, vulgar, profane or lewd language;
4. advertises any product or service not permitted to minors by law;
5. constitutes insulting or fighting words, the very expression of which injures or harasses other people (e.g., threats of violence, defamation of character or of a person's race, religion, gender, disability, age or ethnic origin);
6. presents a clear and present likelihood that, either because of its content or the manner of distribution, it will cause a material and substantial disruption of the proper and orderly operation and discipline of the school or school activities, will cause the commission of unlawful acts or the violation of lawful school regulations.

Distribution on school premises of material in categories (1) through (4) to any student is prohibited. Distribution on school premises of material in categories (5) and (6) to a substantial number of students is prohibited.

II. Procedures.

Anyone wishing to distribute unofficial written material must first submit for approval a copy of the material to the building principal at least twenty-four hours in advance of desired distribution time, together with the following information:

1. Name and phone number of the person submitting request and, if a student, the homeroom number;
2. Date(s) and time(s) of day of intended display or distribution;
3. Location where material will be displayed or distributed;
4. The grade(s) of students to whom the display or distribution is intended.

Within twenty-four hours of submission, the principal will render a decision whether the material violates the guidelines in subsection I or the time, place and manner restrictions in subsection III of this policy. In the event that permission to distribute the material is denied, the person submitting the request should be informed in writing of the reasons for the denial. Permission to distribute material does not imply approval of its contents by either, the school, the administration, the board or the individual reviewing the material submitted.

If the person submitting the request does not receive a response within twenty-four hours of submission, the person will contact the building principal's office to verify that the lack of response was not due to an inability to locate the person. If the person has made this verification and there is no response to the request, the material may be distributed in accordance with the time, place and manner provisions in subsection III.

If the person is dissatisfied with the decision of the principal, the person may submit a written request for appeal to the superintendent. If the person does not receive a response within three school days of submitting the appeal, the person will contact the superintendent to verify that the lack of response is not due to an inability to locate the person. If the person has made this verification and there is no response to the appeal, the material may be distributed in accordance with the time, place and manner provisions in subsection III.

At every level of the process the person submitting the request will have the right to appear and present the reasons, supported by relevant witnesses and material, as to why distribution of the written material is appropriate.

Permission to distribute material does not imply approval of its contents by either, the school district, the board, the administration or the individual reviewing the material submitted.

III. Time, place and manner of distribution.

The distribution of written material is prohibited when it blocks the safe flow of traffic within corridors and entrance ways of the school or otherwise disrupts school activities. The distribution of unofficial material is limited to a reasonable time, place and manner as follows:

1. The material will be distributed from a table set up for the purpose in a location designated by the principal, which location will not block the safe flow of traffic or block the corridors or entrance ways, but which will give reasonable access to students.
2. The material will be distributed either before and/or after the regular instructional day.
3. No written material may be distributed during and at the place of a normal school activity if it is reasonably likely to cause a material and substantial disruption of that activity.

IV. Definitions.

The following definitions apply to the following terms used in this policy:

1. "Obscene to minors" is defined as:
 - a) The average person, applying contemporary community standards, would find that the written material, taken as a whole, appeals to the prurient interest of minors of the age to whom distribution is requested;
 - b) The material depicts or describes, in a manner that is patently offensive to prevailing standards in the adult community concerning how such conduct should be presented to minors of the age to whom distribution is requested, sexual conduct such as intimate sexual acts (normal or perverted), masturbation, excretory functions, and lewd exhibition of the genitals; and
 - c) The material, taken as a whole, lacks serious literary, artistic, political or scientific value for minors.
2. "Minor" means any person under the age of eighteen.
3. "Material and substantial disruption" of a normal school activity is defined as follows:
 - a) Where the normal school activity is an educational program of the district for which student attendance is compulsory, "material and substantial disruption" is defined as any disruption which interferes with or impedes the implementation of that program.
 - b) Where the normal school activity is voluntary in nature (including, without limitation, school athletic events, school plays and concerts, and lunch periods), "material and substantial disruption" is defined as student rioting, unlawful seizures of property, widespread shouting or boisterous demonstration, sit-in, stand-in, walk-out, or other related forms of activity.
 - c) In order for expression to be considered disruptive, there must exist specific facts upon which the likelihood of disruption can be forecasted including past experience in the school, current events influencing student activities and behavior, and instances of actual or threatened disruption relating to the written material in question.
4. "School activities" means any activity of students sponsored by the school and includes, by way of example but not limited to, classroom work, library activities, physical education classes, official assemblies and other similar gatherings, school athletic contests, band concerts, school plays and in-school lunch periods.
5. "Unofficial" written material includes all written material except school newspapers, literary magazines, yearbooks, and other publications funded and/or sponsored or authorized by the school. Examples include leaflets, brochures, flyers, petitions, placards and underground newspapers, whether written by students or others.

7. "Distribution" means circulation or dissemination of written material by means of handing out free copies, selling or offering copies for sale and accepting donations for copies. It includes displaying written material in areas of the school which are generally frequented by students.

V. Disciplinary action.

Distribution by any student of unofficial written material prohibited in subsection I or in violation of subsection III may be halted, and students may be subject to discipline including suspension and expulsion. Any other party violating this policy may be requested to leave the school property immediately and, if necessary, local law enforcement officials will be called.

VI. Notice of policy to students.

A copy of this policy will be published in student handbooks and posted conspicuously in school buildings.

TRANSPORTING STUDENTS IN PRIVATE VEHICLES

Generally, transporting students for school purposes is done in a vehicle owned by the school district and driven by a school bus driver. Students may be transported in private vehicles for school purposes. It is within the discretion of the superintendent to determine when this is appropriate.

Individuals transporting students for school purposes in private vehicles must have the permission of the superintendent and meet all applicable requirements set by the district. Private vehicles will be used only when:

- The vehicle is in good condition and meets all applicable safety requirements;
- The driver possesses a valid drivers' license;
- Proof of insurance has been supplied to the superintendent and the insurance satisfies the minimum coverage requirements for driving personal vehicles in the State of Iowa ; and
- When the parents of the students to be transported have given written permission to the superintendent.

The school district assumes no responsibility for those students who have not received the approval of the superintendent and who ride in private vehicles for school purposes. If transportation is not provided by the school district, or if transportation provided by the school district is declined by the student or parent/guardian, then the responsibility and corresponding liability for transportation for school purposes shall rest solely with the student and parent/guardian.

This policy statement applies to transportation of students for school purposes in addition to transporting students to and from their designated attendance center.-The superintendent may develop an administrative process to implement this policy.

UNMANNED AIRCRAFTS – DRONES

The following policy applies to the extent not preempted by federal or state regulatory jurisdiction regarding unmanned aircrafts. For purposes of this policy, the term “unmanned aircraft” means an aircraft that is operated without the possibility of direct human intervention from within or on the aircraft.

The Maquoketa Valley School District believes in maintaining the safety, security, and privacy of students, employees, and visitors. In keeping with this belief, the use or possession of unmanned aircrafts is prohibited on district property or in the space above the property that reasonably can be considered part of the district property.

The superintendent may make an exception to this policy in specific cases where the circumstances warrant such exception. In such situations and prior to approval, unmanned aircraft operators shall:

- Supply proof of insurance meeting liability limits established by the district;
- Present appropriate registration and authorization issued by the Federal Aviation Administration (FAA);
- Sign an agreement holding the district harmless from any claims of harm to individuals or damage to property; and
- Meet additional requirements as determined appropriate by the district.

If the unmanned aircrafts are operated as part of the district curriculum, prior to adoption into the curriculum, district employees shall work with district administration to ensure the appropriate insurance, registration, and authorizations are in place.

Unmanned aircrafts shall be operated in accordance with Iowa High School Athletic Association and Iowa Girls High School Athletic Union policy.

Failure to abide by this policy may result in local, state, and federal penalties if applicable.

DISTRICT OPERATION DURING PUBLIC EMERGENCIES

The district believes that student learning is the heart of its core mission. While traditional in-person teaching continues to provide the greatest learning opportunity to all students, there may be rare and unusual circumstances that prevent the school community from convening in traditional in-person settings. At times of a public emergency declared by federal, state or local officials, the district will seek guidance and recommendations from federal, state and local agencies to assist in determining the safety of convening traditional in-person learning.

During a declared public emergency, the school board delegates to the Superintendent the authority to determine whether to close school buildings to traditional in-person learning if the Superintendent determines in-person learning would hinder the health and safety of the school community. The district will instead utilize remote or hybrid learning opportunities permitted by law

Following guidance and recommendations from federal, state, and local agencies when reasonably possible, the administration will create regulations related to district operations during a public emergency, including, but not limited to, student, employee and visitor safety and security; the use and safeguarding of district property; public meetings and events, and when applicable, measures to prevent or slow the spread of infectious disease.

These measures will be enforced for the period of time of the public emergency, or until the school board and superintendent, in consultation with federal, state and local agencies determine it is appropriate for the safety measures to end.
